ROCKLAND HEIGHTS BULB FARMS

ALLEN, MICHIGAN

FALL
1927

PRICE LIST

PLANTING SIZE and BULBLET
GLADIOLUS

SEP 5 1927
SPRING
1928

We are here offering to patrons, if interested, a chance to own some of our pure strain of Gladiolus in the several sizes offered. All the regular growers are now aware how careless many advertisers are fast becoming about the state of purity of the stock offered by them and very reluctant to make restitution when advised of such impurity, also, many times bulbs are shipped which are attacked by scab and other undesirable conditions, which make poor returns to the buyer, hence we are calling the attention of growers who would sooner pay just a trifle more than bargain counter prices for a reliable strain that would satisfy them in the end.

About Ourselves

When we say they are merchantably pure we mean 98 per cent or better to the best of our knowledge; we quote them as they are; we double treat the bulblets and larger stock. This insures them against disease and also from the approach of wire worms, etc. Bright as gold, High-Crowned, showing Vitality and life.

It Must Be Borne in Mind

That many fellows are starting to grow bulbs who have children who handle the stock carelessly and such stock must not be compared with concerns who stake their very lives on your money's worth and Purity.

Quoted by the 1000, F. O. B. Allen, Michigan

Stock Below Offered Subject to Prior Sale.

VARIETIES	SIZE NO. 3	SIZE NO. 4	SIZE NO. 5	STANDARD SIX	LIGHT SIX	BULBLETS QUART

We do not care to sell less than 250 at the 1000 rate, or less than one pint Bulblets, and should you believe our prices high and can get them at lower prices we will not mind, for we can make money planting these even at these prices, for we know what we have. However, we appreciate the wonderful patronage we have received, so offer to divide a portion of our stock with you. We will accept your order where a deposit of 25 per cent is sent with order and hold the bulbs in storage and send when wanted, fall or spring. No charge for packing, which is done in best and careful manner against heat and cold. Stock must be up to size and free from scab—just the kind you want. BULBLETS PREPAID. Bulbs shipped Charges Collect.

Thanking you for the past courtesies we are at your service.
